CAREER OBJECTIVE

Detail-oriented and analytical BTech CSE student with hands-on experience in Excel, Power BI, SQL, and Tableau through academic projects and specialized training. Skilled at cleaning, structuring, and visualizing data to uncover actionable insights. Seeking an entry-level Data Analyst role to apply strong analytical and problem-solving skills in a professional environment.

TECHNICAL SKILLS

- Advanced Excel: VLOOKUP, XLOOKUP, Pivot Tables, Dashboarding
- SQL: Advanced SQL, Window Functions, CTEs, Joins
- Data Visualization: Power BI, Tableau
- Programming: Python (in progress)
- Core: Data Cleaning, Data Analysis, Data Visualization

SOFT SKILLS

Analytical Thinking • Problem Solving • Communication • Teamwork • Attention to Detail

CERTIFICATIONS & TRAINING

Data Analytics Course — Adani Skill Development Centre

March 2026 – Present

- Covering Advanced Excel, SQL (Window Functions, CTEs, Joins), Power BI, Tableau, and Python.

PROJECTS

Patient Analysis Dashboard

Internship

- Cleaned and structured raw patient records (3,23,247+ entries) using Excel and Power Query to ensure data consistency and accuracy.
- Built an interactive Power BI dashboard with dynamic Year, Service, and Month filters to analyze patient distribution across 9 departments including Pathology, Sonography, X-ray, and Dental.
- Designed bar, pie, and line chart visuals to track patient volume trends across 5 years (2021-22 to 2025-26) and by month, identifying 2024-25 as the top-performing year and July as the peak month.
- Identified Pathology as the leading department, accounting for 54% of total patient share, enabling data-driven insights for resource and staffing planning.

Sales Dashboard

Personal Project

- Cleaned and preprocessed raw sales data using Excel for accurate analysis.
- Built pivot tables and interactive charts to visualize sales performance across categories and time periods.
- Designed a Power BI dashboard to track key sales metrics, trends, and performance indicators.

INTERNSHIP

Data Analysis Intern — Kutchi Samaj Medical Centre

June 2026 – August 2026

- Collected and consolidated patient data across 6–7 departments including Sonography, X-ray, Dental, Mammography, Body Checkup, and Pathology.
- Cleaned and structured raw patient records using Excel to ensure accuracy and consistency for analysis.
- Built an interactive Power BI dashboard to visualize department-wise patient footfall trends over time.
- Identified Pathology as the highest footfall department, providing insight for staffing and resource allocation.

EDUCATION

B.Tech in Computer Science & Engineering

2025 – 2028

Indus University, Ahmedabad | Current SPI (Last Semester): 8.22

Diploma in Computer Engineering

2022 – 2025

Darshan University, Rajkot | CGPA: 8.78
